Participants: RA Session II, President, Founder and Chief Executive Officer
Dr. Suyash Prasad, Chief Medical Officer and Head of R&D
Kamran Alam, Chief Financial Officer
Dr. Kimberly Lee, SVP, Corporate Communications and Investor Relations

About Taysha Gene Therapies

Taysha Gene Therapies (Nasdaq: TSHA) is on a mission to eradicate monogenic CNS disease. With a singular focus on developing curative medicines, we aim to rapidly translate our treatments from bench to bedside. We have combined our team's proven experience in gene therapy drug development and commercialization with the world-class UT Southwestern Gene Therapy Program to build an extensive, AAV gene therapy pipeline focused on both rare and large-market indications. Together, we leverage our fully integrated platform—an engine for potential new cures—with a goal of dramatically improving patients' lives. More information is available at www.tayshagtx.com.
